

# Kindergarten eLc Newsletter

## May 4th, 2018

### This Week in ELA:

We practiced the reading strategies of imagining our books as movies AND even adding motions to go along with what we read. When we picture our books as good movies in our mind, they are easier to remember. Add a motion here and there, and we get even better! We also practiced "dribbling," signing, and writing sight words *where* and *there*. Please practice identifying these words at home in books that you read. Additionally, we read and illustrated *A Little Seed*. In writing workshop, we worked hard on our narrative pieces. We had an Author's Chair where we shared a favorite piece of writing. We continued to make sure that we used finger spaces between our words, capital letters when needed, and ending punctuation.

### Important Dates:

- 5/25 End of Year Performance 1:45
- 5/29 Memorial Day (Holiday)
- 6/1 Rocket Run
- 6/6 Half Day
- 6/7 Early Dismissal/Last Day of School

### Announcement(s):

- Please see the additional page of this week's newsletter for a school-wide announcement.
- All library books must be returned by May 18th.
- Do not forget you must complete enrollment for next year! Directions can be found on the front page of our school website. 😊

### This Week in Math:

We continued to look at teen numbers, counting them in different configurations. Specifically, we counted them in circles and arrays. We also practiced "counting on" from a number. If there were nine dots and we needed to make 17, we had to count on to make the bigger number. Keep practicing writing teen numbers with your child, ensuring that the "1" is always in the front!

### Home Talk:

We saw so many different animals at the zoo. Ask your child about the animals he/she saw. See if he/she can tell you which animals were oviparous and what that big word means!

### This Week in Science:

O-V-I-P-A-R-O-U-S

What does that mean? This week, we learned all about oviparous animals. These are animals that lay eggs and grow in one. We learned about spiders, chickens, platypuses, fish, alligators, frogs, and of course we revisited penguins. Ask your child which creature lays the largest egg!

Each week, teachers will pick a student who has done a great job being a "bucket filler," or a kind friend. This week, our bucket fillers are:

**Harper Allen and Garrett Grassi**

Hilton Barron 5/10

Reagan Barrett 5/10

Arihanna Williams 5/16

# 2018 Richland Northeast Baseball Camp

June 25th- June 28th

9am – 12pm

Ages 5-13

- Lucas Hummers – Head Coach Richland Northeast, 10 Years of Camp Experience
